

Your supplied picture and/or logo will be placed on this shaded part of the cover with a title (if required) positioned appropriately.

Your website or contact details can appear here on the Pocket. See the samples & Style section.

Business Card Slots are optional

The front of the Folder is shown with the cover closed over the full length Pocket. The folder Pocket can be left as plain white card, or it can have your company colour (shown here as red) and you may also have style lines, web address and Business Card Slots if this is required.

We'll create Artwork using your pictures, logo, and title. We'll enhance supplied files where required, or we'll make good material even better! A stunning professional Presentation Folder will be created and supplied first as a pdf Proof for your approval, and then as a printed proof for a final check prior to production. Alternatively, you may supply Artwork yourself. Please ensure that this is saved as a high resolution pdf and that the print area stays within the greyed area 10mm into the 140mm wide x 305mm high cover.

Back Cover

Logo
and contact details

The back page allows for insertion of contact details and logo in a style to complement the front of the Folder.

We've allowed for a simple layout to the back with contact details, perhaps your logo and website address. A more complex layout with text and pictures can be added for a small extra charge.

The overall dimensions to the back of the Economy A4+ Folder are 305mm high x 215mm in width.

The inside Cover can have this kind of design:

Your Future in Commercial Finance

- Comprehensive Residential Training Course
- Marketing and Business Generation Support
- Named Business Development Manager
- Consultant Support Provided on all Business Cases
- High Demand Professional Services
- Industry Leading Commission Payments
- Access to 200 + UK Lending Partners
- All Business Set Up Fees Fully Refunded on Partner Programmmes

The Inside Cover (the reverse side of the front cover) has the option to include design and print if you require it (for a small extra charge- please see the price list) .

We can style the design around your supplied text and logo to complement the front layout.

And you may choose to provide pictures too if required.

The dimensions are 140mm wide x 305mm high if you decide to create your own Artwork, and the printed area must fall within an area that's 10mm smaller than this all round. Save this as a high resolution pdf and Email it to us.
